

# ST ALUM

## STC 150 / STC E 150 / STW 150

Hinge with a special design where a blade works into the other, thus offering an exceptionally thin width (2,5 mm) which allows, in most of the cases, to avoid rabbet. In the STW version, the blades are displaced from the axis of the hinges, allowing direct installation to any surface without sub frame.

### Outside materials

- blade: anodized aluminum
- adjustable cap: zamac
- washers: polyamide

### Inside materials

- inner axle: stainless steel AISI 304
- inner spring: stainless steel blades set with protective grease

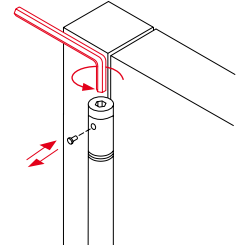

### Performance

- application: suitable for indoor/ outdoor installation
- automatic return: yes
- adjustable return power: yes
- maximum door opening: 180°
- working cycles: up to 500.000

### Proper installation of 2 and 3 hinges

### Tension

### No milling or rebating installation

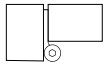

3-points adjusting cap

see ST tutorial
