

ST INOX AISI 304

STC 150 / STC E 150 / STW 150

Frontisses d'acer inoxidable AISI 304 amb un disseny especial on una pala treballa dins de l'altra, oferint un gruix total excepcionalment fi (2,5 mm), la qual cosa permet que en molts casos no sigui necessari fresar el marc ni la porta.

Materials exterior

- pala: acer inoxidable AISI 304
- tap regulador i volanderes: acer inoxidable AISI 316

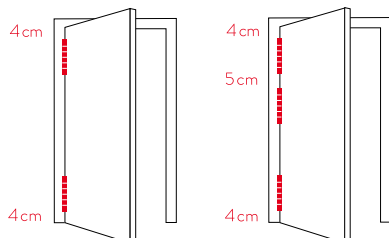

Materials interior

- eix interior: acer inoxidable AISI 304
- molla interior: conjunt de làmines d'acer inoxidable amb greix de protecció

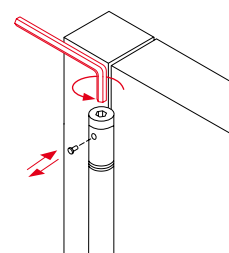

Funcionament

- aplicació: apta la seva instal·lació interior/exterior
- retorn automàtic: sí
- regulable en potència: sí
