

ST ALUM

STC 150 / STC E 150 / STW 150

Bisagras de aluminio anodizado con un diseño especial donde una pala trabaja dentro de la otra, ofreciendo un grueso total excepcionalmente fino (2,5mm), lo que permite que, en muchos casos, no sea necesario cajar.

Materiales exterior

- pala: aluminio anodizado
- tapón regulador: zamac cromado o pintado
- arandelas separadoras: poliamida

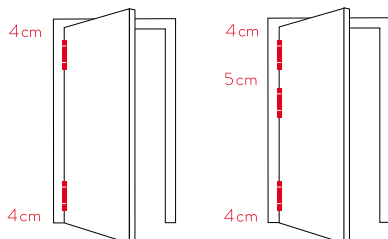

Materiales interior

- eje interior: acero inoxidable AISI 304
- muelle interior: conjunto láminas de acero con grasa de protección

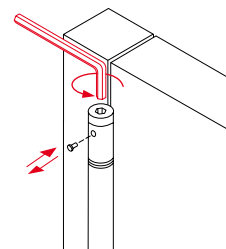

Funcionamiento

- aplicación: apta su instalación interior/ exterior
- retorno automático: sí
- regulable en potencia: sí
- apertura máxima de trabajo: 180°
- ciclos: más de 500.000

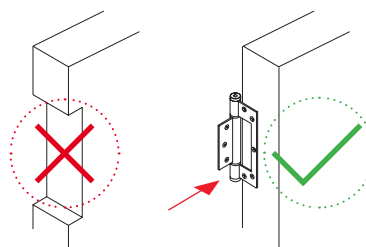

Instalación correcta 2 y 3 bisagras

Tensión

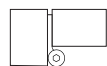

Instalación sin cajar

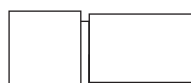

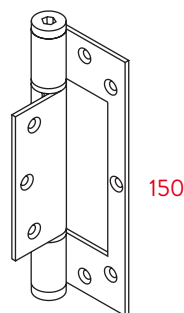

3 puntos de tensión
